Sharp / NEC MultiSync EX241UN

Ultratynn kant – kontorets målestokk for produktivitet på handlegulvet kombinerer slank og elegant design med helsebevisst ytelse.

- Beskytter øynene mot anstrengelse og skade – innebygd teknologi for lavt nivå av blått lys filtrerer bort skadelig blått lys, men flimmerfri teknologi eliminerer flimring i bakgrunnen.
- Høyest produktivitet og effektiv multitasking – reduser antallet PC-er og koble sammen flere skjermer ved hjelp av DisplayPort (ut) og dra nytte av Uniformity Control.
- Effektiv installasjon og konfigurasjon – skjermstativ som kan utløses med én knapp, intuitiv styrespakknapp for menyinnstillinger og administrasjon av et helt oppsett med flere skjermer.
- Juster strømforbruket automatisk - for å minimere unødvendig strømforbruk kan valgfrie sensorer for personer og belysning i omgivelsene justere lysstyrken når en bruker forlater skrivebordet.
- Fremtidssikret design for flere skjermer – 4-sidig ultrasmal kant (kan fjernes ytterligere) reduserer fotavtrykket til et minimum uten at det går på akkord med skjermstørrelsen.
